## Skills

C Programming

C++

Python

Graphic Design

Content Curation

## Experience

### Team Antariksh-Subsystem Engineer

2023 - Present

My work mainly includes handling the ECL and thermal subsystems and writing about the recent developments in space technology.

### E-Cell RVCE-Junior Associate

2022 - Present

I am a junior associate at Ecell RV College of Engineering working in the domain of the department of startup and innovation and corporate partnerships.

### AIIESEC in India-Junior Manager Business Development

2023 - Present

I am a junior manager at AIIESEC in Bengaluru working in the domain of Business Development.

### Mood Indigo,IIT Bombay-Marketing Intern

2022 - Present

I am a marketing intern at Asia's Largest fest MOOD INDIGO held by IIT Bombay.

## Projects

### Social media and graphic designing for WICASA

I created various posters and banners for various events of the Akola Branch of WICASA and also created Instagram posts and reels for their social media handles.

## Achievements

I was a team member in the Wharton Global Youth Program, a global investing competition where we had to manage a client's portfolio. Our team was among the top 50.

Head boy at Mount Carmel School managed various events and competitions and participated in many of them.
